

Less Contact. More Convenience.

Use the app to check-in. That's less time at the front desk!

MARRIOTT BONVOY APP FOR MOBILE KEY

Attendees have the option of leveraging Mobile Key to decrease physical touch. If you provided your Marriott Bonvoy number during the registration process, you will be able to use the app's mobile key feature to access your room with your mobile phone.

1. Open or download the [Marriott Bonvoy app](#). It's FREE, and includes comp wi-fi for members.
2. Confirm your reservation is on the **Trips** tab in the app. (If you don't see it, use the 'lookup' button at the bottom of the Trips screen to add your reservation).
3. Enable your notifications so you know when your room and Mobile Key are ready on the day of arrival. To get room-ready alerts from the app, you must opt-in for push notifications and check-in.
4. For a contactless experience, you should check-in on the app before you begin your trip to the hotel. Mobile check-in is available 48 hours prior to your arrival day and until midnight on day of arrival.

Marriott Bonvoy Enrollment Links and QR Code
